

# ***THE PINSKE EDGE***

## **#83125 8” Indexing Arms**

The 8” Indexing Arms are preset to use with a Straight Edge and Template Guide for routing an exact 1/16” of material off.

By using a Template Guide and Router Bit (either a 3/4” Template Guide and 5/8” Router Bit OR a 5/8” Template Guide and 1/2” Router Bit), you’ll always consistently remove 1/16” of material.

No measuring – just set the Indexing Arms over the Straight Edge and move the Straight Edge back until the Indexing Arms are tight. Clamp the Straight Edge down and remove the Indexing Arms. Then rout your 1/16” material off.
