

THE PINSKE EDGE

#91144S 12' STAND w/Rails (for Backsplash Jig and/or Edge Buildup Clamp)

Assembly Steps:

Step #1 - Take one rail and end leg support and insert 1/4-20 x 3/4 bolt into the bracket.

Step #2 - Insert 1/4-20 x 3/4 bolt into the other end leg support and rail.

Step #3 - Do above two steps for the other side rail.

Step #4 - Take 1 x 1 x 97'' tube with 1/4-20 x 2 ½ bolts, nuts and washers. Insert onto both end leg supports into holes provided on cross braces.

Step #5 - Take middle support and install between rails with 1/4-20 x 3/4 bolts and nuts.

Step #6 - Tighten all bolts at this time.

Step #7 - Install casters. Use 1/4-20 x 3/4 carriage bolts provided on appropriate leg pads.

Note: End supports and middle brace is interchangeable from side to side and end to end.
