

We'll Help You Add Beauty, Style & Function To Your Designs

Upscale solid surface countertops with “Hot Rods” from the Pinske Edge. These high-quality metal grids slip easily into shallow grooves routed in the top, and protect the surface from heat. They’re easy to store when not in use, and the shallow grooves won’t trap dirt. Hot Rods are available in three designs, in your choice of white, almond, black or satin chrome to match any decor.

Boomerang

Full Moon

Butterfly

Consider the “Hot Rod Display Kit” for your Showroom

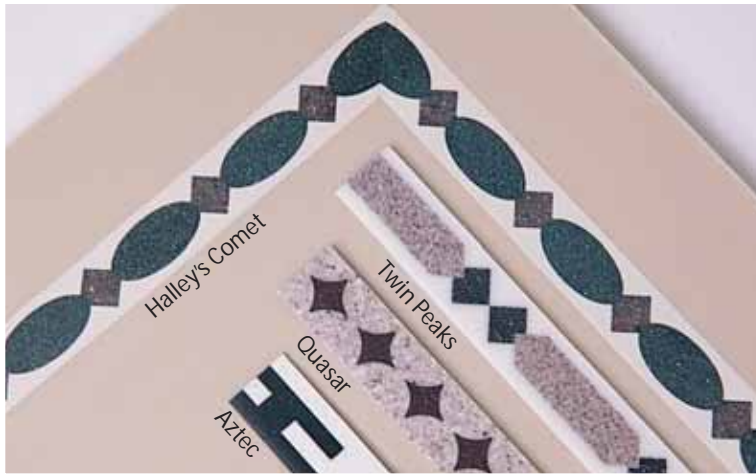

This solid surface board, featuring all three designs, can be wall mounted either vertically or horizontally for convenient showroom display.

The small display board lets your clients examine the shallow countertop grooves, as well as handle the hot rods.

THE **PINSKE** EDGE

We'll Help You Add Beauty, Style & Function To Your Designs

Now it's easy to give your clients a unique, custom look...thanks to the new **Pinske Edge Decorative Inlays!** We've come up with four terrific designs to choose from. Simply tell us which design you want, choose the colors you want and tell us how much you need. We'll supply the material, cut the pieces, glue the inlay together and ship it to you...ready to place in your countertops.

Consider the "Inlay Display Board" for your showroom.
